U.S. Exports of Reported Agricultural Commodities

For 1975/76 - 1979/80 Marketing Years .

Under Section 812 of the Agricultural Act of 1970, as amended, U.S. exporters of wheat, wheat flour, feedgrains, oilseeds, cotton and related products and other commodities that the Secretary of Agriculture may designate are required to submit to the U.S. Department of Agriculture weekly reports of the export sales and exports. In addition, all exporters of U.S. agricultural commodities shall upon request of the Secretary, immediately report any information with respect to export sales of agricultural commodities and at such times as he may request.

Export sales and export data are reported to the Export Sales Reporting Division of the Foreign Agricultural Service by exporters and published weekly for the following commodities and products: Wheat, wheat products, corn, barley, grain sorghum, oats, rye, soybeans, soybean cake and meal, soybean oil, cottonseed, cottonseed cake and meal, cottonseed oil, flaxseed, linseed oil, upland and American pima cotton, rice and cattle hides and skins.

This report covers reported exports over 5 marketing years, 1975/76 through 1979/80. Data are derived from weekly reports submitted by exporters and summarized at the end of each marketing year. In some cases, totals may not add because of rounding. Pie charts and data by region and country for marketing year 1975/76 are for 11 months only (July-May). Graphs showing comparisons for that year have been adjusted accordingly.

The collection of data with respect to export sales and exports of cattle hides and skins are required by Section 7(g) of the Export Administration Act of 1979. It was the intent of Congress that this be accomplished under Section 812 of the Agricultural Act of 1970, as amended. The marketing year for cattle hides and skins is January-December, and is not included in this report.
